WHO WE ARE

Capability statement

ACE Aviation Aerospace Academy (Ace Aviation Pty Ltd, ABN 96 613 247 573) has trained drone pilots since 2016. We deliver in Cairns, Brisbane, Melbourne, Sydney, Newcastle and other capital cities. Our ReOC also covers type training on medium-category spray drones up to 150 kg.

EMPLOYMENT OUTCOMES

Why drone skills lead to jobs

Employers in construction, real estate, media, agriculture, inspection and mining are using drones more, and many of these jobs ask for a CASA Remote Pilot Licence (RePL). A short course gives a participant a recognised licence and a practical skill they can name on their résumé.

Construction

Real estate

Media

Agriculture

Inspection

Mining

Graduates receive complimentary access to DroneWork, ACE's commercial jobs and opportunities network.

Company snapshot

Legal entity	Ace Aviation Pty Ltd
ABN	96 613 247 573
CASA certificate	Remote Operator Certificate CASA.ReOC.1421
Operating since	2016
Students trained	4,000+
Training scope	RePL to 25 kg, medium-category type training to 150 kg, AROC, ReOC setup and night operations
Qualifications	Certificate III in Aviation (Remote Pilot) AVI30419, delivered on behalf of Reach Community College (RTO 40747)
Industry partner	Strategic training partner for XAG Australia
Graduate pathway	Complimentary access to DroneWork, ACE's commercial jobs and opportunities network

XAG

COURSES AND PATHWAYS

Training matched to the participant's goal

Pilot licensing

CASA Remote Pilot Licence (RePL) and Aeronautical Radio Operator Certificate (AROC) packages from \$1,199; Gold Pilot is \$1,799 for sub-7 kg and sub-25 kg multirotor training.

Specialist operations

Agricultural aircraft type training, aerial cleaning, advanced night operations and operator pathways for relevant job or business goals.

Qualifications and technology

Certificate III in Aviation (Remote Pilot) AVI30419, plus RPAS engineering and maintenance pathways.

DELIVERY

How training works

Theory runs live online, followed by practical days with training aircraft supplied, so participants don't need their own drone.

1

Prepare online

Start with ACE's online study materials in the student portal. They include comprehensive course content, recorded lectures, quizzes, practice exams and exam-preparation modules so you arrive ready for the instructor-led training.

2

3 days of live theory via Zoom

Complete three days of face-to-face virtual classroom theory with an ACE RPAS instructor via Zoom. The three days can be completed together or spread over up to 12 months.

3

2 practical days at your selected training location

Attend two days in person at your chosen location: the first day covers practical flight training, and the second covers exams and the flight assessment, followed by the KDR and ELP meeting online.

Standard RePL structure. Short courses such as AROC and night operations follow their own schedules.

Scheduled training locations

Brisbane

Sydney

Melbourne

Perth

Newcastle

Canberra

Practical sessions run regularly, and current dates are on our training calendar. aaa.edu.au/calendar

Groups and regional delivery

For groups we can arrange sessions on demand, including from one site. Specialist courses and regional or on-site delivery are confirmed individually.

Agricultural drone training with XAG

ACE is a strategic training partner for XAG Australia, a leading agricultural drone manufacturer. We have XAG's full support, including access to its state-of-the-art fleet.

FOR CONSULTANTS

What we provide, and how to buy

What we provide consultants

- A formal, itemised quote for each participant
- A course outline and delivery dates
- Our ABN and CASA certificate
- Written confirmation of attendance and completion
- An invoice for your records
- Your supplier setup and purchase order requirements, discussed with you

How to buy in three steps

- 1 Send the details.** Send us the participant's details and preferred location via aaa.edu.au/employment-providers.
- 2 Receive a quote.** We send you a quote and course outline.
- 3 Approve and book.** Once you approve it, we book the participant in and send completion evidence when they finish.

Supplier documents

- CASA ReOC certificate (CASA.ReOC.1421) and this supplier pack: aaa.edu.au/employment-providers
- ABN summary: abr.business.gov.au (ABN 96 613 247 573)

Course price list

Prices current at 5 October 2026. Advertised fees in AUD from our live course catalogue. Prices may change. Your formal quote confirms the final fee, GST treatment, course scope, prerequisites, location and availability.

Drone pilot and operator packages

Silver Pilot	Sub-7 kg multirotor RePL + AROC.	\$1,199
Silver Operator	Silver Pilot scope + ReOC application setup.	\$2,999
Gold Pilot	Sub-7 kg and sub-25 kg multirotor RePL + AROC.	\$1,799
Gold Operator	Gold Pilot scope + ReOC application setup.	\$3,799
Platinum Pilot	Both multirotor classes + one selected sub-150 kg aircraft type + AROC.	\$3,699
Platinum Operator	Platinum Pilot scope + ReOC application setup.	\$5,999

Operator packages provide ReOC application support; CASA authorisation and operating permissions remain subject to applicable requirements.

Agricultural drone pathways

Complete XAG Job Ready	Licensed and ReOC pathway, systems masterclass and guided on-site training. Aircraft purchase quoted separately.	\$8,599
XAG Licensed Pilot Pathway	RePL pathway + one XAG type + operations practice. AROC, ReOC and masterclass excluded.	\$3,299
Licensed & ReOC Ag Operation Pathway	XAG pilot pathway + AROC, ReOC support and operation setup guidance.	\$4,699
XAG Manufacturer Systems Masterclass	Manufacturer systems training; one day included in Complete XAG Job Ready.	\$1,500 per day

Aerial cleaning pathways

Aerial Cleaning Pilot	Sub-7 kg and sub-25 kg RePL + AROC, JTC30 type training and workflows.	\$3,299
Aerial Cleaning Operator	Pilot pathway + ReOC application support.	\$5,299
JTC30 Aircraft Supply	Equipment purchase; listed separately from training.	Quote

Aviation qualifications and advanced operations

Full Certificate III in Aviation (AVI30419) with an ACE RePL package	Full Certificate III add-on. RePL package purchased separately; unavailable with Silver Pilot.	\$1,899 additional
Certificate III in Aviation with Sub-7kg RePL	Standalone pathway includes sub-7 kg RePL + AROC.	\$3,299
Sub-25kg Upgrade	Upgrade pathway for an eligible existing licence.	\$595
AROC (Standard)	Aviation radio certificate training; current promotional fee.	\$349
ReOC Setup	Standalone; \$2,299 with a qualifying ACE RePL pathway.	\$2,499
Advanced Night Operations	Advanced night training beyond basic night operations in general packages.	\$895
Chief Remote Pilot Training	UAMP certification and three months of platform access; not CASA certification.	\$1,899

RPAS engineering and technology

RPAS Engineering & Maintenance	Five-day ACE NextLab program in Melbourne; certificate of completion.	\$5,600
Advanced RPAS Engineering & AI	Two-week Melbourne program; foundation or equivalent prerequisite. Completion certificate.	\$8,999

Engineering programs do not include a RePL.

Aircraft type training

Per aircraft type	XAG P150 MAX · XAG P150 · XAG P100 · DJI T100 · DJI T50 · Joyance JTC30	\$1,450 each
-------------------	---	--------------

Medium category sub-150 kg training for existing RePL holders. Aircraft purchases and ReOC approvals are excluded.

Priced by scope: BVLOS and EVLOS, corporate and on-site training, and Drones in Schools are quoted to scope. Certificate III for people who already hold a RePL from another provider is also quoted individually.

Certificate III is delivered on behalf of Reach Community College (RTO 40747). Employment Fund purchases are subject to provider assessment, participant needs and applicable DEWR requirements. Training does not guarantee employment.
